

Short Answer Grading Assistant

Select Question

1.1

Q: What is the role of a prototype program in problem solving?

Model Answer :

► To simulate the behaviour of portions of the desired software product.

Grading

Student Answer: To simulate portions of the desired final product with a quick and easy program that does a small specific job. It is a way to help see what the problem is and how you may solve it in the final project.

Assigned Grade: Correct
